Dear Rottweiler Friend,

Thank you for your interest in a puppy from **Sierra Gold Rottweilers**. First off, we want you to know that we are not a commercial kennel! Our purpose in breeding, training, showing and caring for our "family" of Rottweilers is *"To Better the Breed"*. If you decide to purchase one of our "four legged children", *we need to get to know you!*

Please visit our web site for more information about us and our planned litter(s) at:  
<http://www.sierragoldrottweilers.com>

If you are interested in a puppy from our current breeding(s) please fill out and return our Puppy Questionnaire, which can be found at:  
[http://www.sierragoldrottweilers.com/CSS/sgrotts\\_pupQuest.fill\\_print\\_07.09.pdf](http://www.sierragoldrottweilers.com/CSS/sgrotts_pupQuest.fill_print_07.09.pdf) **Complete the Questionnaire!** Save the file to your desktop, for your records [if you wish] and **PRINT it**. Then **either fax or mail it to us**. Make sure you let us know exactly what you want from your puppy; working ability, Schutzhund, conformation, pet/companion, etc. Your input will help us make sure we pick the right puppy for you.

Please be aware that if you are interested in a pet/companion puppy; the puppy will be chosen for you. Many people inquire about our puppies and let us know they are interested in a family pet/companion puppy only, and that's fine, our #1 priority is that our puppies go to the very best life long loving homes. However, we take pride in having produced quite a few top show dogs over the years; a number of them featured on our web site. After seeing examples of our dogs some people looking for a pet/companion puppy - either after a visit in person, or after viewing photos of the puppies after they are born and as they grow - see one particular puppy and say, "okay, I/we want that one," not realizing they may have chosen one of the top show prospect "picks of the litter". It does not work like that.

A puppy may, or may not have a disqualifying show fault but; we chose which puppy is placed as a pet/companion in the home we feel is most appropriate. It makes no difference - a pet/companion or a top show prospect, we have put in the same investment, including lots and

lots of our time and love. They have all received the same treatment and have the same parents. They all have the same capacity to return your love and make you happy.

We give certain health guarantees on all our puppies. While with us they are cared for around the clock, and are given everything they will need to start their lives away from us on a positive note. They are "all" equally loved and cared for as our family, well socialized, and vaccinations started before they leave to go to their new homes.

Here is a quote we have seen that always gets our attention, and we believe it to be very accurate; "a top quality puppy is not expensive, they are priceless".

Our litters book in advance, so if interested be sure to complete and send our Puppy Questionnaire as soon as possible. A \$500.00 binder is required to reserve a puppy. The binder is **non refundable**, unless we cannot provide you the puppy. Shipping, etc. expenses are extra. Please note; we only ship our puppies within the USA or Canada and would prefer you pick up your new puppy in person.

After sending us the completed Puppy Questionnaire please call us [before 8:00 PM Pacific Time USA] at: (775) 883-3398. Our fax: (775) 883-2789, our e-mail: [sgrotts@sbcglobal.net](mailto:sgrotts@sbcglobal.net).

Thank you for your time and consideration!

Sincerely,

*Michael & Janet Miller*
